**Subject:** RE: college student seeking to talk with someone on gkm for a paper

Her name is [Citizen Name/Ex. 6] and she's a college student working on a final project for an environmental geology class. Much of what she wanted can be found on EPA's GKM website so I directed her there. She also asked about a tour of GKM and I told her we were currently not arranging tours due to weather-related safety issues. She asked if EPA could arrange a tour of another mine in the area and I suggested she reach out to Kirsten Brown at CO DRMS. She also wanted some really basic info on mining so I suggested she contact the Western Mining Institute in CO Springs and/or CO History in Denver, which currently has an exhibit on mining. She seemed very pleased with the leads so I think we can consider this closed.

She may be a graduate student – could not hear her name – think she is at southwest Colorado –

Her number is Personal Phone/Ex. 6, if someone could reach out to her.

Thanks
